Subject: Updated version
06_Scenario_v5.docx

Hi Phil,

Here is version 5 that has changes accepted (most of them) that we had discussed last week; I've also deleted comments that we've addressed. There are still some things needing to be addressed, but I wanted to get this to you before you started working on it today. I also added some text to try to describe our scenario names, as per discussion with Kate yesterday. Not sure where they fit best, but see what you think.

This afternoon, I'll look into what revisions/updates need to be done to the tables based on files from Ralph and Jim (Rice).

I'll give you a call a little after 1 my time.

Cheers,
Barb
